

A Member Board of the American Board of Medical Specialties (ABMS)

CERTIFICATION EXAMINATION IN CHILD AND ADOLESCENT PSYCHIATRY

Beginning in 2023, the American Board of Psychiatry and Neurology, Inc. (ABPN) will be utilizing two-dimensional content specifications for the child and adolescent psychiatry certification examination. Within the two-dimensional format, one dimension is comprised of disorders and topics, while the other is comprised of competencies and mechanisms that cut across the various disorders of the first dimension. Questions for the child and adolescent psychiatry certification examination will conform to these content specifications. By design, the two dimensions are interrelated and not independent of each other. Each question on the examination will fall into one of the disorders/topics and will be aligned with a competency/mechanism. For example, an item on substance use could focus on treatment, or it could focus on systems-based practice.

Candidates should use the detailed content specifications as a guide to prepare for the certification examination. Please note that no single examination tests everything on the content specification blueprint. The American Board of Psychiatry and Neurology, Inc. is a not-for-profit corporation dedicated to serving the public interest and the professions of psychiatry and neurology by promoting excellence in practice through certification and continuing certification processes. For more information, please contact us at questions@abpn.com or visit our website at www.abpn.com.

CERTIFICATION EXAMINATION IN CHILD AND ADOLESCENT PSYCHIATRY Content Outline

	Dimension 1
	Psychiatric Disorders and Topics
01. De	velopmental processes and development through the life cycle (psychiatry
an	d neurology)
Α.	Infancy through adolescence
	01. Personality and other developmental processes
	a. Child development theory (e.g., cognitive theory, moral development,
	learning theory, psychodynamics)
	02. Psychosocial influences
	03. Other
02. Ne	eurodevelopmental disorders
Α.	Intellectual disability
В.	Language disorder
С.	Speech sound disorder
D.	Childhood-onset fluency disorder
E.	Social communication disorder
F.	Autistic spectrum disorder
G.	Attention deficit/hyperactivity disorder
Н.	Specific learning disorder
١.	Developmental coordination disorder
J.	Stereotypic movement disorder
Κ.	Tourette disorder
L.	Persistent motor or vocal tic disorder
М.	Provisional tic disorder
03. Su	bstance-related and addictive disorders
Α.	Alcohol-related disorders
В.	Cannabis-related disorders
С.	Hallucinogen-related disorders
D.	Inhalant-related disorders
E.	Opioid-related disorders
F.	Sedative-, hypnotic-, or anxiolytic-related disorders
G.	Stimulant-related disorders
Н.	Tobacco-related disorders
I.	Other (or unknown) substance-related disorders

 J. Gambling disorder O4. Schizophrenia spectrum and other psychotic disorders A. Delusional disorder B. Brief psychotic disorder C. Schizophreniform disorder D. Schizophrenia E. a. Pharmacologic		
		a. Pharmacologic

1. Management of use (disorder), intoxication, and withdrawal
2. Relapse prevention
3. Management of co-occurring conditions
b. Nonpharmacologic
1. Management of use (disorder), intoxication, and withdrawal
2. Relapse prevention
3. Management of co-occurring conditions
05. Treatment of aggression/self-injury
a. Pharmacologic
b. Nonpharmacologic
06. Treatment of sleep-wake disorders
a. Pharmacologic
b. Nonpharmacologic
07. Treatment of pain
a. Pharmacologic
b. Nonpharmacologic
08. Treatment of neuroleptic malignant syndrome, TDEPS, and serotonin syndrome
a. Pharmacologic
b. Nonpharmacologic
09. Treatment in special situations
a. Renal disease
b. Hepatic disease
c. Pregnancy
d. Breast-feeding
e. Tardive dyskinesia and extrapyramidal symptoms
10. Augmentation strategies
11. Nonpharmacologic somatic treatment
a. Biofeedback
b. Electroconvulsive therapy
c. Phototherapy
d. Chronotherapy
e. Vagal nerve stimulation
f. rTMS (repetitive transcranial magnetic stimulation)
g. Neurosurgical approaches
h. Other
12. Psychotherapy
a. Supportive
b. Cognitive and/or behavior (including DBT)

	c Internersenal
	c. Interpersonal
	d. Psychodynamic and psychoanalytic
	e. Couples and family
	f. Group
	g. Crisis intervention (e.g. critical incident debriefing, psychological
	debriefing/early intervention)
	h. Motivational interviewing
	i. Other (e.g., hypnotherapy, sex therapy, mindfulness, meditation)
	13. Psychosocial interventions
	a. Psychoeducation
	b. Vocational and occupational rehabilitation
	c. Self-help groups (e.g., AA, NA)
	d. Community-based treatment programs (e.g., halfway houses, day hospitals,
	multimodal treatment programs, therapeutic communities, opioid agonist
	treatment programs)
	e. Other
F.	Interpersonal and communication skills (including management of conflict)
	01. Communication with patients
	02. Communication with other professionals
	03. Communication with the public
	04. Communication with patients' families
	05. Communication with the healthcare team
G.	Professionalism, ethics, and the law
	01. Sensitivity to diversity
	02. Adherence to ethical principles (e.g., informed consent, research issues, clinical
	care)
	03. Fatigue management, work-life balance, and physician well-being
	04. Professional behavior
	05. Participation in the professional community
	06. Legal issues in psychiatry
	07. End of life issues
Н.	Practice-based learning and improvement
	01. Development and execution of lifelong learning
	a. Self-assessment and self-improvement
	b. Use of evidence in the clinical workflow
	02. Formal practice-based quality improvement
١.	Systems-based practice
	01. Patient safety and the healthcare team

a.	Medical errors, patient safety, quality improvement, and improvement
	activities
b.	Regulatory and educational activities related to patient safety
02. Resource management (e.g., utilization management and review, integration and	
systems of care ² , managed care issues)	
a.	Parity
b.	Access to care
с.	Telepsychiatry
03. Community-based care	
a.	Community based-programs
	1. Other (e.g. nursing homes, skilled nursing facilities, assisted living)
b.	Prevention
С.	Recovery and rehabilitation
d.	Integrated care (collaborative care)
04. Consultation to nonpsychiatric medical providers and nonmedical systems (e.g.,	
military, schools, businesses, forensic)	
05. Public health and prevention, and public policy	
06. Documentation of practice, management of records, insurance, and	
reimbursement
